RESEARCH INTERESTS

Machine Learning | Applied Artificial Intelligence | Intelligent Systems | AI for Scalable Software Applications

PROFILE SUMMARY

Computer Science graduate with professional software engineering experience in backend systems, scalable APIs, and cloud-based applications. Seeking graduate study in Artificial Intelligence to build expertise in machine learning, intelligent systems, and AI-driven software, with the long-term goal of contributing to industry-oriented AI research and real-world intelligent applications.

EDUCATION

BSc. CSIT — *St. Lawrence College, Kathmandu* Jan 2022 – March 2026
Overall Percentage: **72.14%**
A-levels (Cambridge) — *NAMI College, Kathmandu* Aug. 2019 – Sep. 2021
Overall Percentage: **73%**

RELEVANT COURSEWORK

Artificial Intelligence | Data Mining | Data Structures & Algorithms | Database Management Systems | Software Engineering | Computer Networks | Computer Architecture | Linear Algebra | Probability and Statistics

TECHNICAL SKILLS

Programming: Python, JavaScript, PHP
Frameworks: Django, FastAPI, Laravel, ReactJs, Tailwind Css, JQuery
Databases: PostgreSQL, MySQL
Cloud & Deployment: AWS EC2, S3, Docker
Concepts: RESTful APIs, MVC Architecture, Object-Oriented Programming
Tools & Practices: Jupyter Notebook, Git, Postman, API Testing, ngrok, Redis

KEY PROJECTS

Medici — Enterprise SaaS Integrated Webapp

- Independently developed Medici end-to-end, a large-scale company web application for a Japanese client, integrating multiple external SaaS platforms including Zoom, Slack, Notion, Vimeo, Excel, and Stripe into a single unified system
- Built a YouTube-style video streaming and playback module from scratch to deliver educational video content to Japanese users
- Implemented Redis for caching and ngrok for secure local-to-cloud tunneling during development and testing
- Developed the full project lifecycle architecture, backend and frontend development, and third-party API integration making it one of the largest and most technically diverse projects handled individually

Everest — Sports Management & Tracking Web App (FastAPI, React)

- Developed a cloud-based sports management platform for a US-based client, featuring performance monitoring and activity tracking
- Designed backend services using FastAPI with a React-based user interface
- Deployed the application on AWS EC2 with S3-based for storage infrastructure to support scalable application hosting.

Bus Ticketing System

- Implemented a real-time seat reservation system focusing on availability management, transactional consistency and secured booking workflows.

PROFESSIONAL EXPERIENCE

Junior Full-stack Developer — *Jodnu Technology*

Dec. 2025 – Present

- Working as a Full Stack Developer on a Japanese-based project, developing and integrating scalable backend APIs and frontend features
- Building and maintaining end-to-end web application functionality using Django/FastAPI and React

Junior Developer — *Afore Solutions*

May. 2025 – Dec. 2025

- Backend API development and integration tasks for JDM UK projects
- Conducted API integration and functional testing using Postman
- Performed backend optimization, debugging, and QA testing to ensure system stability

Intern — *SoftNEP Pvt. Ltd.*

Jan. 2025 – May 2025

- Gained hands-on experience with full-stack development in production environment
- Worked with professional MVC architecture and modern development workflows

ADDITIONAL INFORMATION

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Time Management

Languages: English (C1), Nepali (Native)
